UNIQUE DESIGN TRAITS

A classic diamond halo is given a modern upgrade in this special ring.

The brilliant unheated yellow-orange fancy sapphire glows with the colors of a sunset, matched with a subtle rose gold bezel.

The diamond halo is mounted with a masterfully constructed platinum wire basket that sits comfortably on the hand.

GEMSTONE DETAILS

Fancy Sapphire

Besides the most commonly recognized blue sapphire, the mineral corundum occurs in a variety of hues, referred to as fancy color sapphires if not predominantly blue. For all sapphires, the more intense the color, with little extinction or zoning, will be more valuable relative to other factors. Fancy sapphires are commonly grouped into major color categories – padparadscha, pink, purple, orange, yellow, green colorless and black. Some sapphires may be considered ‘parti-colored’ by displaying combinations of different colors. Each color category has its own color range, color-causing trace elements and sources. As more and more consumers become familiar with the range of hues available in fancy sapphire, a continued increase in demand is inevitable.
